

Refugee youth creating community with organic gardening and nutritional cooking.

Care less for your harvest than for how it is shared and your life will have meaning and your heart will have peace.

End of Growing Season

What a fantastic season! We are proud that we have successfully completed 2 growing seasons in GCK. We harvested over 600 pounds of food this season. Much went to our farmers' homes. We had an amazing harvest festival this year with over 40 people in attendance. Seasonable food was enjoyed by all, as was the great sense of community.

What will we do now? After taking October off we will focus on cooking, teambuilding, planning next season, dance parties and football games! We are going to develop our leadership team which has some work to do before we enroll new youth; many have been patiently waiting to join GCK.

We want to thank everyone who is a part of our success! The community that supports us makes us strong.

We will focus a lot of time on fundraising this fall and winter.

All donations are tax deductible so please, if you believe in what we are doing, contribute now!
